EST. 2002

EX ERGOWORLD (2002)

18 Years Going Strong. Formerly known as Ergoworld, HÅLLNING (means "Posture") acts as a one-stop-solution for a Smart-Ergonomic lifestyle and has proudly continued in focusing on keeping postures healthy with a vision of making Indonesia a better place to work, live and rest. We are proud to be able to contribute and innovate our services in providing the Best Ergonomic Solutions for human's life.

Ever since 2002, Hållning has been focusing on Children Ergonomics starting from Ergonomic Backpacks (Highly-known for SPI) and Children's Ergonomic Study Desk and Chairs. Because, **"We believe that A Good posture must begin from a young age"**.

With the successful launch of the Children Ergonomics segment, Hållning then expanded the market by including the Adult Office Ergonomics segment which includes, Ergonomic Office Chairs and Standing Desks, to Sound Ergonomics and Sleep Ergonomics with a belief of, **by combining a movement and variations while working to a good sound ergonomics and a good healing sleep would generate maximal performances for human's life.**

YOUR ONE-STOP SOLUTION FOR A SMART ERGONOMIC LIFESTYLE

Hållning is very careful in curating the brands they carry. They provide a wide range of furniture, devices and solutions that are "REAL ERGONOMICS". With a shared belief in human-centred and sustainable design, each of our brands has its own unique identity, and their own stories to tell.

WHAT IS ERGONOMIC?

Ergonomic is the science of work and a person's relationship to that work. With the understanding of ergonomic, it focused on making products & tasks comfortable and efficient for the user.

When it comes to work surroundings, poor worksite design leads to fatigued, frustrated and hurting workers. This leads to a painful and costly, lower productivity and poor product quality.

WHAT MAKES OUR "ERGONOMIC CONCEPT" DIFFERENT?

All our chairs are designed to ensure movement: without people having to think about it.

This means one less thing to worry about and more time to focus on what really matters.

Not only that our chairs are fully adjustable to your needs, what makes us special is indeed, our Advanced Ergonomic Mechanism.

At the core of our HÅG Chairs are our signature HÅG in Balanced® movement Mechanism which ensures that you are always sitting in balance.

Dynamic Ergonomic

HÅG in Balance® movement

In Balance

Tilts Upwards

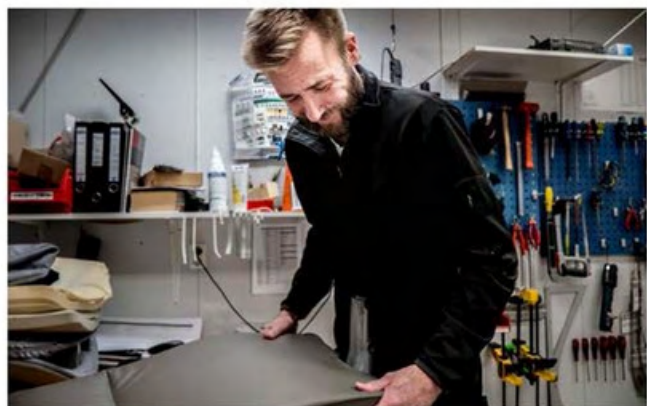

Tilts Downwards

Being in Balanced allows you to tilt backwards and forwards with ease. Enabling you to naturally shift position as part of your everyday workflow.

With The Balanced Movement Mechanism™, the front edge of the seat tilts upwards when you lean backwards and down when you lean forwards. This stimulates ankle movement, in turn activating the circulation mechanism of your lower legs, enhancing circulation throughout the body.

The result is greater energy and improved efficiency at work.

QUALITY AT HÅLLNING

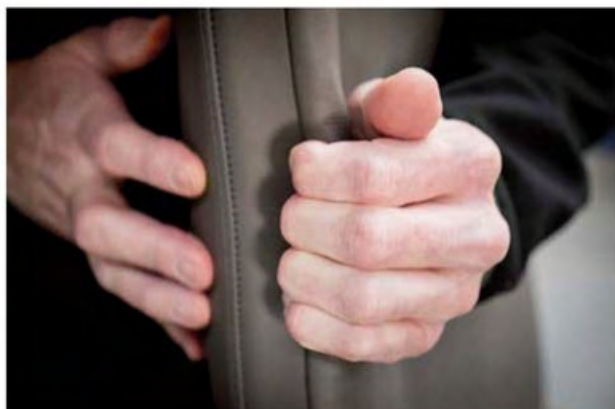

SELECTING THE BEST MATERIAL IS ONE OF OUR CORE VALUES.

All of our Leather Chairs are all wrapped up in a high-end luxurious leather, **The Paloma Aniline Leather** from Wollsdorf, Austria. (Mainly used for High-end supercars such as: Ferrari, Aston Martin, Porsche, Bugatti, Roll Royce, Mercedes-Benz, BMW and many more.).

OUR QUALITY IS A NO DOUBT.

Each of our furniture is manufactured with absolute precision and lovingly crafted by one of the many skilled technicians at our factory in Germany, Sweden, Denmark and Norway - a historic town with a magical atmosphere.

Our brands have been a major part of the community here since 1957, and we're proud to have such a dedicated team of designers and engineers.

MADE IN SWEDEN

Ever since 1977, the human body has been RH's greatest source of inspiration. With the focus on people, we produce chairs that are designed to help you do more and perform better. RH calls it: **"DESIGNED FOR HUMAN PERFORMANCE"**.

A SCANDINAVIAN SENSATION - DESIGNED FOR YOU

Uncompromising ergonomics combined with innovation and design. The office chair RH Mereo helps you to achieve an active sitting position, better concentration, and better performance.

Made in Sweden | 10 Years Warranty.

RESTING POSITION

WORKING POSITION

KEEPING YOU STRAIGHT WHEN WORKING AND EVEN RESTING

RH Mereo is crafted to merge with you - even if you lean forwards and backwards on the chair the small vertical movements of the seat prevents pressure on the thighs, stimulating your blood circulation and minimising tensions.

The 2PP™ dynamics bring active sitting to one and to all, all you have to do is sit down, adjust the chair to your body and enjoy smooth and frictionless movement, placing you in a perfect work mode, all day, everyday.

RH Mereo is perfect for workplaces where several people use the same office chair. The chair is crafted to enhance performance for both individuals and teams in contemporary. Either it's an Open-plan office, Private office, even Home Offices, The RH Mereo will never go out of style.

The RH Mereo chair is a task chair designed to give everyone a sitting experience as if it was custom made. It is easily adapted for everyone, whatever your size or shape.

WITH EASY 8 WAYS ADJUSTMENT

FUN
FACT

The RH Mereo is designed by VeryDay Team. The same designer who designed the Koenigsegg Sports Car.

RH LOGIC

PERFORM BETTER WITH RH LOGIC AS YOUR COLLEAGUE.

You deserve an office chair that is right for your body. With RH Logic, you can choose a high or low back and a number of other design features. The result is a comfortable office chair that helps you to perform better throughout the working day.

Made in Sweden | 6 Years Warranty.

WHO YOU ARE, WHATEVER YOU DO, WHENEVER YOU DO, DO IT IN COMFORT.

The way we work depends on who we are, what we do and when we do it. But one thing that unites us is the need for well-being during long hours by the desk. The RH Logic is a natural choice for lasting individual comfort.

By adjusting smoothly to your body and providing crucial support and relief, it helps you stay focused on getting things done - no matter who you are, what you do or when you do it.

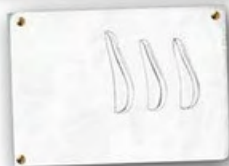

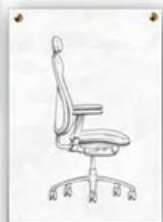

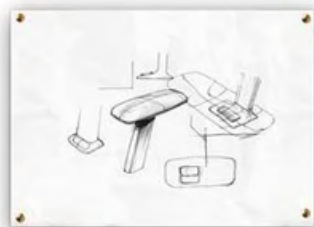

“To make it accessible has been the driving force”

JONAS STOKKE
Designer RH New Logic

The new RH Logic is the result of a five year long process, where our developers have collaborated closely with designers Jonas Stokke and Øystein Austad.

The driving force has been to make the chair accessible and comfortable to use but also to manage and to look at.

Partners and architects were involved early on in the process and a number of users have provided crucial input during several stages of testing and development. All this to make sure that the chair meets every demand.

WITH EASY 9 WAYS ADJUSTMENT

WHAT MAKES RH LOGIC A NATURAL CHOICE?

1. Adjustable neck rest supports the neck and relieves the body
2. Sculptured shape provides comfort, keeps the back upright and gives support in any position.
3. A bulge that encourages upright position and open posture.
4. Inflatable lumbar support that can be adjusted with an additional pump.
5. Separately adjustable backrest angle provides support in any position.
6. Rounded front and waterfall edges reduce pressure on thighs.
7. Adjustable seat depth improves blood circulation and leg support.
8. Frictional tilt mechanism follows your every movement. Lockable in every position.
9. Elevated base gives space and helps keep feet firmly on the floor.

ERGONOMIC TASK CHAIR

| WITH ADVANCED ERGONOMIC MECHANISM

In Frame: HÅG CAPISCO 8106 in Paloma Leather

PIONEERING IN REAL ADVANCED ERGONOMICS

As humans, we are meant to move. HÅG designs chairs that help you stay healthier, more active & alert by enabling effortless movement of your whole body while you sit and work. The result is more freedom, greater comfort & better productivity.

HÅG CAPISCO
| MADE IN NORWAY | PULS

The story of the HÅG Capisco is a story of philosophy. Of exploring our nature, and providing something better. It's a story of one man's vision which has helped to shape a brand ideology and the story of a classic design which has outlived its contemporaries and continues to inspire to this very day

A STORY OF A DESIGN ICON | SINCE 1981

Inspired by the form and movement of the body, Capisco's human-centered design allows more healthy and active sitting postures in a single chair than three others put together. | Designer: Peter Opsvik
Made in Norway | 10 Years Warranty.

RESTING POSITION

WORKING POSITION

"THE BEST POSTURE IS ALWAYS THE NEXT ONE"

Inspired by the dynamic posture of a horse rider, the HÅG Capisco was innovative in more than just one way. Its unique aesthetic appeal lies in its sculptural saddle shaped seat and curvaceous back rest.

The plus-shaped back of the seat makes for comfortable backwards or sideways sitting, the contoured saddle seat opens the hips for a more active, forward posture, and of course there's plenty of space at the back of the seat for traditional sitting.

Today, the HÅG Capisco is a global design icon, easily our bestselling chair, not only for adults but children, and its popularity is still rising. Its unique design is perfectly suited to meet the increased awareness of the effects of sedentary behaviour, and the growth of both designers & consumers seeking alternative, unconventional features. Add that to the rising popularity of height adjustable desks, and the sit-stand trend, the chair is more relevant than ever. For some, the HÅG Capisco was truly ahead of its time.

CAPISCO | CAPISCO PULS

MOVEMENT & VARIATIONS

Do you know that you can sit on a capisco chair in so many ways?

HÅG SOFI | MESH

| MADE IN NORWAY

As humans, we are meant to move. HÅG designs chairs that help you stay healthier, more active & alert by enabling effortless movement of your whole body while you sit and work. The result is more freedom, greater comfort & better productivity.

THERE ARE LOTS OF REASONS WHY A HÅG SOFI WITH MESH BACK IS THE IDEAL CHOICE

Our new HÅG SoFi model with a mesh back incorporates market-leading technologies, and beautiful aesthetics, to provide a seating solution that offers great design, supreme comfort and endless flexibility.

Made in Norway | 10 Years Warranty.

Every detail has been considered to take us further than before.

All our chairs are designed to ensure movement; without people having to think about it. This means one less thing to worry about and more time to focus on what really matters.

Designed to help energise the user, the HÅG SoFi mesh helps improve focus and general well-being.

DESIGNED TO SUPPORT NEW WAYS OF WORKING

The HÅG SoFi range was created to meet changing human needs in workplaces that were evolving at pace. This evolution meant that workers increasingly needed tools and solutions that empowered them to work better and differently.

We wanted to empower people to be able to do more, more effectively. All this should happen while minimising effort, both mental and physical.

With the New HÅG Technology, you can simply adjust the Upholstered Lumbar support and headrest to your individual needs.

**FUN
FACT**

The New HÅG SlideBack™ armrests are unique and multi-functional. By Simply Push back and park, it allows you to move closer to your desk, invite you to sit sideways or use the armrests as elbow.

HÅG SlideBack™ Armrests

HÅG FUTU | MESH

| MADE IN NORWAY

As humans, we are meant to move. HÅG designs chairs that help you stay healthier, more active & alert by enabling effortless movement of your whole body while you sit and work. The result is more freedom, greater comfort & better productivity.

STREAMLINED. ECO-FRIENDLY.

The HÅG Futu combines compact looks with high-precision engineering. It's ideal if you lack space, yet require an effective task chair. All technical parts are integrated into its shape, making it more streamlined. This helps it easily blend in with its surroundings.

Made in Norway | 10 Years Warranty.

The HÅG Futu has a breathable backrest, keeping your back cool via constant ventilation.

A fully functional lumbar support is integrated inside the HÅG Futu Backrest, making it look simple and clean, but functional.

It features our latest HÅG in Balance® movement mechanism, which keeps you in continuous balanced movement.

PERFECT FOR MEETINGS & COLLABORATION

ELEGANT AND INTELLIGENT

HÅG Futu provides the best of two worlds:

- A clean, harmonious exterior and an advanced interior based on HÅG in Balance® technology.
- HÅG in Balance® technology ensures more subconscious movement for more energy and better flow throughout your workday.
- Designed to be in harmony with its surroundings and free of unsightly long levers and adjustment wheels.
- User-friendly with minimal need for adjustment for the individual user. Makes it a very good chair for multi-user office environments.

The HÅG In-Balance Mechanism™

Follows your every move to achieve an up-right posture and allow movement & variations

FUN

FACT

Given the fact that 96% of the materials used are recyclable, the HÅG Futu is one of our most eco-friendly chairs.

NEW!

HÄLLNING A350 | MESH

| ENTRY LEVEL CHAIR

Introducing you to HÄLLNING's Entry - Level Series. Keeping to HÄLLNING's Standard and core values with more affordable options.

INTRODUCING YOU, THE A 350 MESH - BLACK

Combining futuristic and simplicity design, the A350 Series has been HÄLLNING's top entry-level choice. This chair is highly specified for an entry-level staff chair and meeting chairs in the local market.

The A350 Series seat is wrapped with a fine fabric option with a "Water-Resistant Technology" inside.

Whereas if the water is spilled to the fabric, it instantly repels the water from being absorbed into the seat foam, which gives long and better durability to the chair.

EQUIPPED WITH:

Equipped with a minimalist touch and a translucent - strong meshback that allows light to pass through.

Giving more exposure and vibrance to the space making it less bulky and gives out a brighter ambience throughout the space.

With Ergonomic Mechanism,
"Ergo-Sync Mechanism"
that allows user to perform better when working.

The Smart HÅG TiltDown™ armrests

MOLL YOUNG OFFICE SYSTEM

| MADE IN GERMANY

90 YEARS MOLL | CHILDREN ERGONOMICS MADE IN GERMANY, SINCE 1925.

For more than 90 years, moll is a leading international manufacturer of children's desks and children's chairs that grow with the child, as well as desks and swivel chairs for private office and organizational furniture.

Made in Germany – at moll, that's not an advertising slogan, but a reality.

moll's typical quality meets all standards for ergonomics, durability and customization – and everything is developed and manufactured right in Germany.

In-Frame: MOLL WINNER DESK & MAXIMO CHAIR

FUN

FACT

P.S: DEAR PARENTS,
WE HEAR YOU.

Children like to do one thing with preference: **THEY GROW. NEITHER REGULARLY NOR DO YOU KNOW EXACTLY WHEN THESE CHANGES WILL STOP.** This is to the distress of the parents, concerning clothes and furniture, which are usually not able to grow. Do not worry. We got it covered. Introducing you to:

“YOUR CHILDREN’S COMPANION FOR MORE THAN 15 YEARS!”

1* WHY MOLL?

Made in Germany – at moll, that’s not an advertising slogan, but a reality. All moll desks are produced and assembled in Gruibingen, at the foot of Germany’s Swabian Alps. And development and refinement of new products and the existing range also takes place in our own development department in close cooperation with quality management.

2* THE PATENTED TILT ADJUSTMENT FOR TABLE TOPS

For ergonomically healthy posture when drawing, writing, reading or doing crafts, all moll desks have a safe and easy-to-operate tilt function.

The desktop can be adjusted at various angles to let children choose the most relaxed seating position for activities like writing, drawing or reading.

3' HEIGHT-ADJUSTABLE DESK & CHAIRS FROM MOLL.

Children grow, and their needs change. That's why children need desks and chairs that adapt to their body's proportions - and that at every stage of development.

This is where the tried-and-true Comfort height adjustment comes in. It takes just a few seconds to easily bring the desk to the ergonomically correct height. Ergonomically, the correct children's swivel chair is just as important as the children's desk.

4' ERGONOMIC LIGHTING

Flexible and glare-free - the children's light from moll.

No objects that could cast shadows should be placed between the "Flexilight" of moll and the work area to be illuminated. This is the only way to illuminate the workplace completely.

5' ACCENT COLORS TO CHANGE

Children grow, and their needs change.

What makes these special: You don't have to decide on a color once and for all. They can be quickly replaced and wait safely in the box for the next color change. Good, because the moll desks are so durable.

**FREE 8 colors to change*

JUST WHAT YOU NEED.

MOLL WINNER SPLIT
MADE IN GERMANY

MOLL JOKER DESK
MADE IN GERMANY

MOLL MAXIMO CHAIR
MADE IN GERMANY

MOLL SCOOTER CHAIR
MADE IN GERMANY

moll JOKER

| MADE IN GERMANY

moll is from Germany - Where All moll products are developed and produced, started almost 100 years ago: in the Swabian Alps of southern Germany. Focusing only on high-quality children ergonomic furniture.

MOLL JOKER CHILDREN DESK the easy starter model

The Joker desk system is our trump card. It is captivating for its reduction to classic moll details but does not compromise in design, quality and function. The love of detail, of the product and the workmanship can be seen at first sight. Focusing on what's important – without skipping on ergonomics – it offers everything a child's desk should, and even grows with the child. **Made in Germany | 5 Years Warranty.**

THE MOLL JOKER MAKES LEARNING EASY

From preschool to elementary and beyond – Joker grows along with them. Because back-friendly posture is important, Joker can be set to the child's exact body size.

The Joker offers the Classic height adjustment in 10 steps with a proven hook fitting. This version allows an adjustment range of 53 - 82 cm.

The desk height is right when the seated child's fore-arms lie on the desktop at a right angle to the upper arms.

THE TABLE TOP INCLINATION - SIMPLE AND USEFUL

The desktop can be adjusted at an angle to let children choose the most relaxed seating position for activities like writing, drawing or reading. For children, the viewing distance between the eyes and paper is smaller than for grownups – this means the paper must be closer to the eyes and not the other way around. And kids unconsciously do it right. For this reason, the desktop on Joker can be set from 0 to 30 degrees – and it's so easy a child can do it.

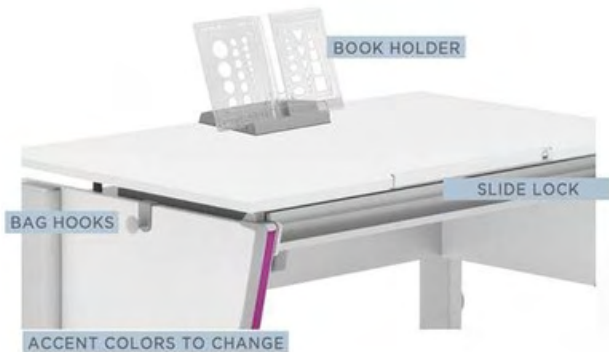

DESIGN ACCORDING TO THE CHILD'S WISHES

Because kids are usually very clear about what they do and don't like, the Joker has decorative elements in six colors. They can be changed to the child's current favorite color at any time.

Child safety is particularly important to us. With its rounded corners, the Joker is designed to ensure the safety of its users. Child friendly and safe, the Joker is the ideal companion in the children's room. First-class partners for first-class design

WHAT DO YOU GET? (What's Included)

moll WINNER SPLIT

MADE IN GERMANY

moll is from Germany - Where All moll products are developed and produced, started almost 100 years ago: in the Swabian Alps of southern Germany. Focusing only on high-quality children ergonomic furniture.

MOLL WINNER CHILDREN DESK the table with the multiple possibilities

Let's keep it short: Whoever is called a winner must also be one. That's why we've given the moll Winner many small details and big ideas that make it a slightly better children's desk. The bottom line is: your child has everything it needs. And when it grows, the Winner grows with it. With its extremely stable workmanship, it will keep its name for years to come. **Made in Germany | 5 Years Warranty.**

EASY TILT ADJUSTMENT

Because there is an optimal angle for every activity, such as writing, drawing or reading, the desktop can be tilted as needed. To prevent backaches, there is no rule for which angle is ideal for which activity. It depends on the individual's personal feeling.

Here you can rely on children's somatic intelligence – on their innate, intuitive sense of what to do, what feels good for the body, and what is just the right tilt angle.

WHAT MAKES THE WINNER SO SPECIAL?

In addition to the wide range of accessories that the winner always has with him. Thanks to attractive decorative elements and a wide range of extension options, the Winner easily adapts to individual needs.

Depending on the space needs, age and size of the child, Winner can be easily extended over time without being taken apart. Winner grows with growing needs. So: just relax.

WINNER SPLIT, BECAUSE THERE ARE NOT ONLY PENS AND SCISSORS FOR LEFT- AND RIGHT-HANDERS.

In everyday life, children often have to deal with everyday objects that have been developed for right-handed use. So left-handed people are faced with a great challenge because they have to change their natural movements.

That is why Winner offers the Winner Split version. Here one part of the desk top stays flat and the other part can be tilted. If the desk is used by a left-handed person, the desk top is mounted so that the inclinable part is on the right side. The left flat part serves as a storage surface on which everything important is within reach. If the Winner Split is used by a right-handed person: just mount the tiltable desk top section the opposite way - it is easy to change at any time so that the desk can be flipped from left to right up version.

WHAT DO YOU GET? (IT'S FREE!)

moll MAXIMO

| MADE IN GERMANY

moll is from Germany - Where All moll products are developed and produced, started almost 100 years ago: in the Swabian Alps of southern Germany. Focusing only on high-quality children ergonomic furniture.

MOLL MAXIMO ERGONOMIC CHAIR the classic - tried and tested for many years

In recent years the moll Maximo has been the best-selling children's swivel chair. The swivel chair Maximo from moll grows not only with the kids but it also offers three adjustments in order to customize it to the individual height and proportions.

Made in Germany | 5 Years Warranty.

WHAT IS SPECIAL ABOUT MOLL MAXIMO?

Molded cushions, a seat with shock absorbers and oscillating back rest intensify the effect and motivate to keep changing the position instead of remaining static.

With the customization of seat height, back and depth of the chair, kids does not only sit comfortably at any time but also all criteria of ergonomics are fulfilled. It prevents back pain and promotes healthy sitting.

ERGONOMIC ALL AROUND FOR GIANTS, THE LITTLE ONES AND OTHER TEENAGERS.

Perfectly adjusted to the body: Seating height, seating depth and the height of the backrest can be separately adjusted on the Maximo.

This is very important because body proportions are individual and children grow quickly. Therefore, the moll Maximo can be adjusted very precisely and in all required directions.

Thus the swivel chair adjusts with growth spurts in the range between 110 - 195 cm. and supports the correct body posture.

Operating lever seat height adjustment

Control button backrest height adjustment

GOOD FOR KIDS: THE RIGHT CHAIR SETTING.

A kids' swivel chair succeeds when it has a number of adjustment options that allow truly precise settings. The moll Maximo chair offers three settings options: It is extremely easy to adjust the backrest height, as well as the seating depth and seating height. The kids in the video show you how easy it is to get the right setting.

HIGHLIGHTED FEATURES

Star base & Break Castors

The wide five-armed star base offers stability and safety and braked castors have brakes and are suitable for both hard & soft floors.

Bayonet locks &

Upholstery Colors

Seat and backrest cushions can be easily changed and cleaned without tools. choice of 10 different fabric colors.

Handle

The chair column has a practical handle. This makes it easy to move the Maximo in the room.

Secret compartment

Hidden under the seat and extremely popular with children: the secret compartment.

moll SCOOTER

| MADE IN GERMANY

moll is from Germany - Where All moll products are developed and produced, started almost 100 years ago: in the Swabian Alps of southern Germany. Focusing only on high-quality children ergonomic furniture.

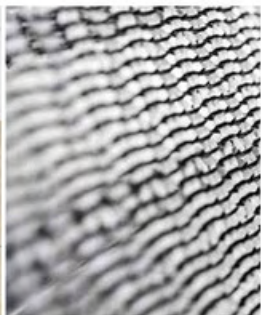

MOLL SCOOTER ERGONOMIC CHAIR

the actively breathing, body adjusted swivel chair for youth.

An ergonomically appropriate chair that grows with the user – that's our standard. With Scooter, we are setting a completely new design accent in children's and teens' rooms. It has a very unique design language, new materials and patented functional components.

Made in Germany | 5 Years Warranty.

WHAT IS SPECIAL ABOUT MOLL SCOOTER?

Lightness and transparency come from the high-tech mesh stretched over its seat and backrest. The mesh snuggles the body like a second skin, cushions weight shifts and also scores points for breathability. This means that the body gets support where it needs it.

WASHABLE UPHOLSTERY

Those who like things more colorful or cozier go for the additional cushions. With just a few hand movements, they button right to the seating surface and backrest. They are washable and come in 10 different colors.

This means that moll Scooter is not just an excellent addition to the growth-adjustable children's desk for ergonomics and good posture, but it also allows the play of colors common to all moll furniture.

PERFECTLY ADJUSTED TO THE BODY

On Scooter, it's not only the mesh that makes for optimal adjustment to the body. Instead of a traditional central column, Scooter has an inclined frame fastened to the star base, and on that, the functional components for the seat and backrest.

With this, it is easy to adjust the seating depth, seating height and the backrest separately: Fold out the lever and slide the backrest or seat to the desired setting.

This allows the desk chair to adjust optimally to the seating height, seating depth and current body size – from kindergartners to teens, for body sizes between 110 cm and 195 cm. At the same time, all adjustment levers are self-explanatory and easy to operate.

HIGHLIGHTED FEATURES

Star base & Break Castors
The six-armed star base offers stability and safety and braked castors have brakes and are suitable for both hard & soft floors.

Upholstery Colors
moll Scooter with a choice of 10 different fabric colors. Change it anytime you want.

Change-able upholstery
The seat and backrest cushions for Scooter are easily interchangeable, and easy to clean.

Seat & Back height adjustment
A secure system to adjust the back height & seat depth.

moll FLEXLIGHT

| MADE IN GERMANY

moll is from Germany - Where All moll products are developed and produced, started almost 100 years ago: in the Swabian Alps of southern Germany. Focusing only on high-quality children ergonomic furniture.

MOLL FLEXLIGHT DESKTOP LIGHT a companion day or night

Flexlight is slender, extremely flexible, and will make children's eyes shine - even when it is not switched on. Flexlight is moll's response to the unanswered question of whether lights for children's desks can be functional, lower energy and cleverly designed - all at the same time.

Made in Germany | 5 Years Warranty.

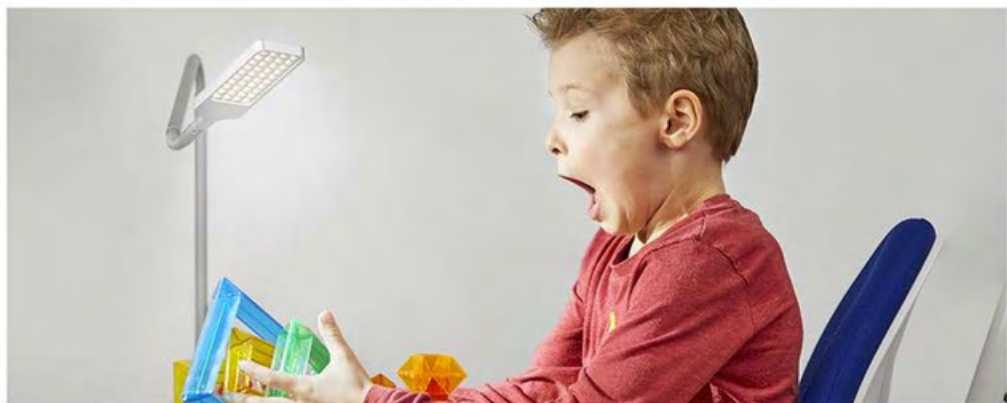

WHAT IS SPECIAL ABOUT MOLL FLEXLIGHT?

Flexlight is all this, and more. The integrated LEDs bathe the desktop in a pleasant, warm white light. This means the user can read, write, draw or paint without glare, while the lack of flickering also protects their eyes.

And if a shadow does occur, it can instantly be magicked away - thanks to the two swan necks and the clamp mount with the ball joint, it couldn't be easier to aim the light exactly where it is needed. The brightness can also be adjusted as desired. The dimmer function also creates a pleasant ambience away from the desk.

MINIMALIST DESIGN, HIGH-TECH AND HIGH QUALITY MATERIALS

The slender lines of the light will not only appeal to very young users – the minimalist designer item also makes a clear statement in teenagers' rooms. And because moll combines this cool look with high-tech and high quality materials, the lamp can be kept once the little child has grown up.

THE FIRST LIGHT FOR CHILDREN'S DESKS THAT ALSO OFFERS SOMETHING EVEN WHEN IT IS SWITCHED OFF.

The switch on the light head is not only for switching the light on and off, but is also a self-illuminating smart control element. The switch button changes color with just a touch and is suitable as a nightlight when the main light is shut off. Thus the desk light becomes a night light that can be changed as and when desired.

HIGHLIGHTED FEATURES

The clamp foot holds Flexlight securely to the desktop without much space, even when the desktop is tilted. In this way, the Flexlight children's desk lamp can be attached anywhere.

A sensor button allows the light to be continuously dimmed from 100 percent to 5 percent without flickering.

Flexlight is the first light for children's desks that also offers something even when it is switched off – mobile phones and other items can be charged via the USB double port on the clamp

The LED light is a real energy saver: It saves 85 percent of energy compared to a 60-watt bulb.

LOUNGE & HOSPITALITY

| STACKING CHAIRS, SOFA, STOOLS

In Frame: **RBM NOOR Series**

BRINGING LIFE TO ROOMS

Scandinavian design, which is often categorised by minimalism, is a movement that is admired all around the world. It is a state of mind expressed through design.

We strive to achieve beautiful style without any fuss by creating a range of functional design pieces that both serve a purpose and has a meaningful story.

RBM ANA

MADE IN SWEDEN

RBM – Scandinavian Design since 1975 - RBM's history is deeply entrenched in the traditions of Danish design. With a balance of warmth and functionality, our furniture offers Scandinavian style that endures and will bring life to rooms.

SIMPLICITY & GOOD ERGONOMICS

RBM Ana is a popular choice throughout much of Scandinavia, and abroad. Hence, it's one of our bestsellers. Designed by renowned industrial designer Tias Eckhoff, it fuses simplicity with good ergonomics, and famously fits in anywhere. Creating a buzz in assembly halls, meeting rooms and cafeterias, it's proven to be a smash hit.

Made in Sweden | 6 Years Warranty.

STACKABLE UP TO 12 CHAIRS.

The Ana chair is stackable up to 12 chairs. Making it more easier and practical for people to move the chairs around and to keep it in order without having to waste so much space.

MIX & MATCH WITH UNIQUE COLOR CHOICES.

The RBM Ana is also well known for its unique color choices. You can mix and match colors to your own preference in creating more dynamic and fun environment.

You can also customize your RBM Ana chair with your to your own style by mixing the color of the shell and legs.

The Ana chair comes in 3 variants:

HÄLLNING NANO HUB

The HÄLLNING Nano Hub is the latest addition to HÄLLNING Lounge family. The Nano Hub gives a different statement to an office space. Giving a more warm and welcoming space for people to collaborate.

COZY, UNIQUE AND FUNCTIONAL

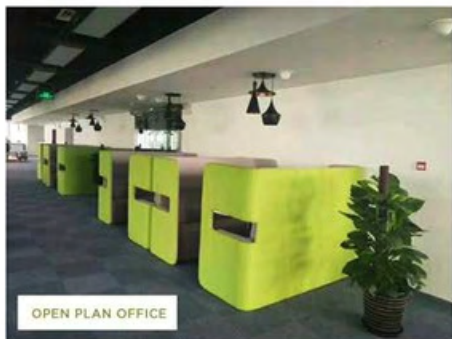

It's perfect for collaboration area, open meeting area, or any other bustling social places where the atmosphere is dynamic. The Nano Hub also acts as a divider where people can happily take calls or chat privately.

The Nano Hub design is more about simplicity and functionality.

The Nano Hub has sound insulation on the wings of the sofa, giving more privacy to the user. They can talk here freely to each other or on a phone rather than having to go to private spaces like an empty meeting room or a hidden hallway.

The sofa also accommodates two armrests at the end of both sides, giving it an open feel rather than a closed & bulky feel.

The Nano Hub comes in 2 variants:

NANO HUB
ONE-SEATER

NANO HUB
TWO - SEATERS

MIX & MATCH WITH UNIQUE COLOR CHOICES

You can mix and match colors to your own preference in creating more dynamic and fun environment. You can choose different colors from the seat, front shell, even back shell.

You can also choose different fabrications such as; Cashmere Fabric or Standard Fabric

HEIGHT ADJUSTABLE DESKS

INVEST IN HIGH QUALITY HEIGHT - ADJUSTABLE DESKS

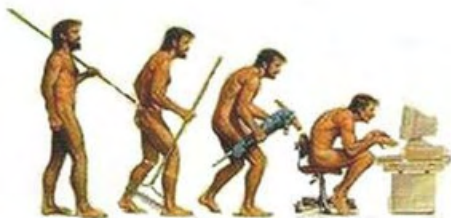

Today's working environments are different from the one in the past. **WE ARE NOW FORCED TO BE SEATED IN ORDER TO WORK.** The main problem with most computer workstations today lies in a fact that would seem contrary to the natural instinct. This is the reason why we provide only **HIGH QUALITY Height - Adjustable Desks.**

WHY INVEST IN HEIGHT ADJUSTABLE DESKS?

Today's working environments are different from the one in the past. **WE ARE NOW FORCED TO BE SEATED IN ORDER TO WORK.** The main problem with most computer workstations today lies in a fact that would seem contrary to the natural instinct.

"THE HUMAN BODY IS DESIGNED TO MOVE IN MOTION, AND NOT TO BE SITTING FOR LONG PERIODS OF TIME."

Movement is important for our spinal health, by improving circulation and reducing muscle fatigue. The only way to Relief from Static Muscle Fatigue can only be **achieved by "movement"**. An Increased blood flow to fatigued muscles occurs when standing and walking, which re-energizes the muscles.

BUT DON'T WORRY, WE GOT A SOLUTION FOR YOU!

INTRODUCING YOU TO THE NEW WORKING SENSATION - **THE SIT-STAND.**

INSPIRED BY THE FORM AND MOVEMENT OF THE BODY, Capisco's award-winning human-centered design offers more healthy and active sitting postures in a single chair than three others put together, making it the perfect complement to an adjustable standing desk.

You can adjust the seat height from a normal desk sitting height to a semi standing position. Making it the ideal office chair suited to work surfaces at different heights and for use with a height-adjustable desk.

HÄLLNING SMART X SERIES

You may have heard the saying, "sitting is the new smoking," - Dr. James Levine. Research shows that you can reduce your chances of cancer, type 2 diabetes, cardiovascular disease, and back pain, all with one simple lifestyle change: reduce the time you spend sitting. And this is why HST is born.

"HEIGHT ADJUSTABLE WITH INDIVIDUAL CONFIGURATIONS".

The HST SERIES (HÄLLNING SMART TABLE), is our latest addition to the Height-Adjustable table family with a customized table top configuration, which is more cost and environmentally efficient.

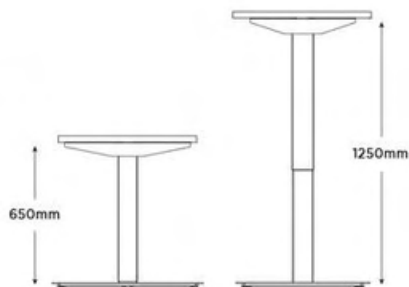

For single desk type you can change the table sizes from time to time, from 1400mm to 2000mm in length. (A new table top is required).

Made in Germany | 5 Years Warranty.

ADJUSTS TO INDIVIDUAL NEEDS.

Adjust the height of your table with an unlimited stop, ranging from 668mm to 1268mm. This way, user can adjust the height of the table to their individual needs where they will find the perfect fit and position in order for them to be able to work with a good and healthy posture.

Not only that, but users can work standing up instead of always sitting down. This allow users to have variations in working, maintaining good posture and burning more calories.

The **HST Series** comes in 2 models; The Single desk & the Back to Back Bench Working station (2ws).

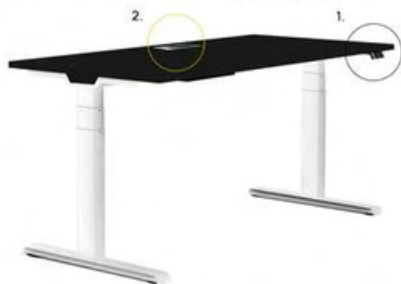

Our back-to-back benching options are the answer to creating a modern open office plan; maximizing a workspace and leaving behind the days of space-consuming cubicles.

Combine these benefits with our height-adjustable table components, and you have all the pieces needed to create a streamlined, healthy workstation that accommodates the needs of a technologically advanced culture.

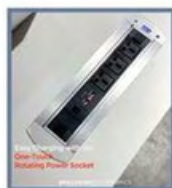

? What's included

Cable Management Tray, HÅLLNING Automatic E-Socket, Rotating Stationary tray, Display Memory Handset,

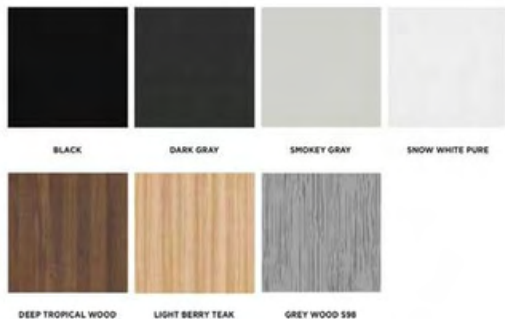

1. Display Memory Handset

2. Automatic E-Socket

CUSTOMIZE YOUR TABLE-TOP COLORS

The HST Series allows you to customize your own table top. You can request a table-top size from 1400mm - 2000mm and a desirable table top color with our standard color options.

DUBA B8 S 4000

ERGONOMICS | *SLEEP ERGONOMICS***

At SwissAire, sleep ergonomics mean more than just choosing between a soft, firm or hard mattress. We take a more holistic view of improving quality of life through a better sleep experience.

Our postural support uses the finest in Swiss precision pressure relief innovation to holistically tailor ergonomics true to your 30 personal needs for a deeper restorative sleep, and a greater sense of Wellbeing.

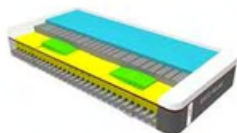

SWISSAIRE

| MADE IN SWITZERLAND

At SwissAire, sleep ergonomics mean more than just choosing between a soft, firm or hard mattress. We take a more holistic view of improving quality of life through a better sleep experience.

MORE THAN 80 YEARS OF EXPERTISE IN SLEEP ERGONOMICS

The spinal column is one of the most vital part of the human body and provides the main support for our body, making all our movements possible while protecting the spinal cord from injury.

Made in Sweden | 6 Years Warranty.

SLEEP ERGONOMIC IS THE SCIENCE OF VITALITY

The well-designed structure of the spine serves many functions and maintaining this spinal curvature through proper posture while sleeping and lying is vital for decreasing stress, muscular pain and preventing fatigue for general good health.

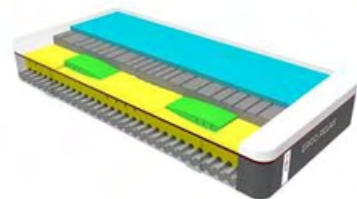

OUR STUDIES

Our years of expertise in sleep ergonomics identified two main spectrum of postural discomfort:

1. Upper body postural discomfort (areas concerning neck, shoulders and middle back).
2. Lower body postural discomfort (areas concerning lower back and hip).

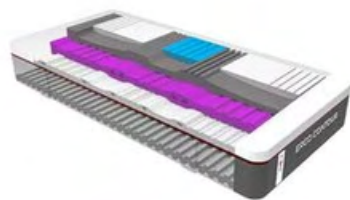

Numerous research also point to the benefit of mattress being individualized to fit individual needs with spinal alignment in supine being supported in a similar posture to that in standing.

The **Swissaire Ergonomic Mattress** comes in 4 variants:

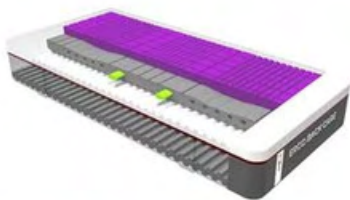

SWISSAIRE ERGO-RELAX MATTRESS

SWISSAIRE ERGO-RELAX PROVIDES RELAXATION FOR THE BODY AND MIND ALLOWING US TO COME TO OUR SENSES AND FORGET OUR EVERYDAY WORRIES.

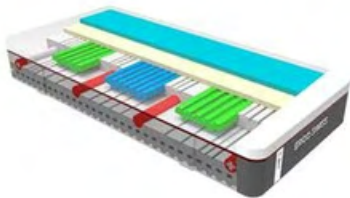

SWISSAIRE ERGO-CONTOUR MATTRESS

SWISSAIRE ERGO-CONTOUR COMBINES BALANCE AND HARMONY FOR THE HIGHEST POSSIBLE COMFORT LEVEL. FOCUS RELIEF FOR SHOULDER AREA WHILE AT THE SAME TIME SUPPORTING THE BODY IN ALL OF THE ESSENTIAL PLACES ACROSS THE ENTIRE SLEEP SURFACE

SWISSAIRE ERGO-BACKCARE MATTRESS

SWISSAIRE ERGO-BACKCARE MATTRESS IS DESIGNED TO SUIT THE MOST DEMANDING SLEEPER WHO REQUIRE COMBINATION OF EXTRA FIRM BACK SUPPORT WITH EXTRA COMFORT.

SWISSAIRE ERGO-SWISS MATTRESS

SWISSAIRE ERGO-SWISS, THE EPITOME OF THE FINEST SLEEP ERGONOMIC PRECISION. A SENSUAL LUXURY, OFFERING A HAVEN OF SWEET DREAMS AND DEEP, RESTORATIVE SLEEP.

SONOS HI-FI

| MADE IN NORWAY

Sonos is the ultimate wireless home sound system: a whole-house WiFi network that fills your home with brilliant sound, room by room. Ranging from background musics to a smart-sound home theatre audios.

WIRELESS SPEAKERS AND HOME SOUND SYSTEMS

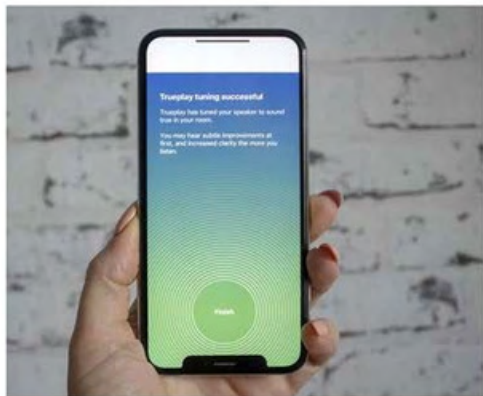

Easily connect speakers over WiFi to create the sound system you want, and expand it at any time and anywhere you want.

ENGINEERED FOR LISTENING & FINE-TUNED BY OSCAR - AND GRAMMY- WINNERS

With a team of world-class experts in acoustics and engineering, Sonos meticulously designs speakers from the inside out, combining custom woofers and tweeters with proprietary software.

Sonos balances the science of sound with creative input from renowned producers, mixers, and artists, including Rick Rubin, Chris Jenkins, Manny Marroquin, Emily Lazar, Tom Elmhirst, Noah Goldstein, and Nigel Godrich. Working with Sound Experience Leader Giles Martin, they provide feedback throughout the product development process to ensure our speakers preserve the emotional intent of their work.

ENHANCED WITH TRUEPLAY™ TUNING TECHNOLOGY

“I want to listen to the music, not the speaker,” says record producer and Sonos advisor Rick Rubin.

Trueplay technology adapts the sound you play to the unique acoustics of the space and speakers playing—from Trueplay for home cinema to Auto Trueplay with Sonos Move.

Trueplay is spatially-aware tuning technology available in the Sonos app.

HOMETHEATRE

Set up your Sonos to a Hometheatre mode.

Easily connect your speakers over wifi and experience the difference with smart sound, Sonos 5.1

Phantom A new breed of speaker. Unlike any wireless speakers that have gone before, Phantom's revolutionary technologies fuse together to deliver an intense emotional experience. This is Phantom Reactor, a new breed of wireless speaker.

PHANTOM PREMIER.

ANOTHER CLASS OF SPEAKER.

Forget what you think you know. Unlike any wireless speakers that have gone before, Phantom Premier's revolutionary technologies fuse together to deliver an intense emotional experience. One you can literally feel in your bones.

IMPLOSIVE SOUND CENTER

Plug, play and unleash the physical impact of a high-end ultra-dense sound with power, clarity and precision like nothing you've ever encountered.

Hi-Fi. Docks. Speakers. Home cinema. Wireless or bluetooth. Phantom Premier obliterates all existing home sound systems.

Ultra-low frequencies take you beyond the limits of the human ear. Feel infrabass with your entire body, however low the volume.

ANATOMICALLY UNIQUE.

108 patents. 12 kilos of high technology. 60 kilos of thrust force behind the lateral woofers. 174dB of internal acoustic pressure. That's rocket launch level.

It took over 80 specialists in aerodynamics, automobile, acoustics and mechanics to perfect a system capable of sustaining these extreme physical conditions. 10 years of research and development and 25 million euros went into engineering the best sound in the world.

ONE, TWO, MORE. PREPARE TO BE FLOORED.

Be as unreasonable as you want. In Solo or Duo, Phantom Premier promises a true moment of refinement.

And no matter what you decide, you'll be sure to feel the difference. Phantom Premier's spherical architecture defies the norm, delivering ultra-physical and room-filling sound, whatever space you're working with.

Prepare to be floored.

Featuring a durable three-piece aluminium body with multipin connectors for quick setup, the MAUI® P900 delivers massive power from highly efficient Class D amplification and a line array of 50 neodymium loudspeakers.

TRUEWIRELESS STEREO™ TECHNOLOGY

It is equipped with Bluetooth® using aptX™ and AAC coding for high-resolution audio streaming with a range of 70 m (230 ft.), and the integration of TrueWireless Stereo™ technology enables easy wireless stereo operation of two MAUI® P900 over Bluetooth® with up to 40 m (130 ft.) distance between the left and right channel systems.

To maintain maximum clarity even at the highest volume levels, the unique column system includes LD Systems' fully automated DynX® digital signal processing. With system and subwoofer level controls only, the MAUI® P900 offers exceptional user-friendliness.

LD SYSTEMS
MAUI 5

The MAUI 5 is an ultra-compact PA and monitor system in one that comes in at just under 11 kg to supply 800 watts peak performance and a maximum sound pressure of 120 dB. MAUI 5 is assembled in a matter of seconds thanks to specially developed multi-pin connectors and only four components. It also boasts extensive sound dispersion and high feedback resistance.

The MAUI 5 is easy to carry and fits on any car seat.

Thanks to built-in Bluetooth® technology for wireless streaming alongside use of the microphone, line and high-impedance inputs, a wide variety of sound sources can be connected to the MAUI 5, including playback devices and instruments, such as keyboards or guitars.
